FEDERATION BOARD MEETING NEWS UPDATE

On January 9, 1986, approximately 40 people attended the Federation Board Meeting held at the Hotel Dunfey (formerly the Marriott) in Philadelphia.

While most of these people were officers or chairmen, there were a few newcomers. Everyone is welcome and urged to attend these meetings. To many dancers, our Federation is unknown, and it is not realized exactly how much they really do for square and round dancers.

Bill Manuel, President, takes unique control of every meeting and you can be sure that business is attended to in a very timely manner.

After the beginning formalities are completed, each district chairman reports on their past month's activities and plans for upcoming dances and special events.

The Standing Committee Chairmen then report to the group on their meetings and activities. Steve Musial, Treasurer of the 24th D.V.S. & R.D. Convention, had the distinct pleasure of presenting Bill & Doris Manuel, Federation Presidents, with a check in the amount of \$7,631.79, which were the proceeds from the September 1985 Convention. This was certainly a fine tribute to everyone who put so many hours into the planning and running of this excellent Convention.

Over 900 registrations have already been received for the 25th Convention, so it is stressed that anyone who plans to attend, should send their registrations in as soon as possible so they will not be disappointed when the Convention is closed. This year's committee is planning a very special "Silver Jubilee", so it will be one convention that you won't

want to miss!

Steve Musial, President of the 26th National Board, made a very special announcement that will affect all square dancers concerning the "Free Summer Dances" held in all three districts. These dances are sponsored by the Federation for new dancers and money to finance these dances comes from the 26th National Advisory Staff. The following stipulation must be followed or the money given to all three districts will be discontinued. All "Free Summer Dances" must be programmed at the Basic/Mainstream level and all round dancing (if available) must also be at the beginning level. If a district does not follow this rule (and the dances will be monitored) by having their callers/cuers call at the required level only, all districts could lose the money which finances these special dances.

"Free Summer Dances" are extremely important for new dancers, so they may stay active during the summer months. Too many dancers are being lost between May and September when club activities begin again. Don't let this happen just because one of your callers/cuers gets too aggressive and wants to teach more than the Basic/Mainstream level. New dancers do not need to become frustrated and lose the self confidence that teachers try so hard to help them build up. Without new dancers our clubs would no longer be what they are today.

Roger Owings, Chairman of the very successful "Jim Wolf Benefit Dance", presented the grateful Bud & Betty Wolf with a check in the amount of \$4,215.05, which were proceeds from the November 1985 Benefit Dance.

Won't you please join us at our next meeting?

ATTENTION EVERYONE!

In the January/February issue of Squares & Rounds, we had placed a poll concerning the magazine, and as of this date, we have only received a hand-full of polls in return, 48 to be exact. We do hear your complaints but we need to hear from each and every one of you in order to make the necessary changes. It is not too late to send in your poll! Are you happy with the magazine, etc.?

Sam & Peggy Brubaker

SQUARE/FOLK DANCE LEADERS OF THE DEL. VAL.

1986 gave us a fresh start with two meetings, the agendas of which gave us fresh energies and enthusiasm for the future.

In January, Andy & Shirley Brindzak were our gracious hosts. At that meeting, we discussed the many mishaps and aborted plans we had experienced, took decisive steps to begin the remodeling of our 35 year old Constitution, and Jim Howatt presented a very detailed report on the "Crossfire" workshop which he and Doris attended at Copecrest in Georgia.

Now, as our new Vice President, Jim Howatt has taken over the task of arranging workshops for our future meetings and he is also in the Program Chairman's seat for our Welcome Dance, which will be held on May 4, from 2:00-5:00 PM, at the Thomas Paine School. We will need callers/cuers for this dance, so we advise that leaders sign up with Jim as quickly as possible. Write to Jim Howatt, R.R. 2, 12 Stackhouse Lane, Columbus, NJ 08022, or call 609/298-5957.

On February 2, we held our meeting at the Westfield Friend's School in Cinnaminson.

The Annual Spring Festival will be held on May 18, from 2:00-5:00 PM, at the Nottingham Ballroom in Hamilton Square, NJ. We are very happy to announce that the aborted dance, scheduled for last October with John Kaltenthaler, will definitely take place on May 18. Because of contractual difficulties we experienced with

the Polish-American Hall in Yardville, we had to cancel our plans for that day. John Kaltenthaler graciously accepted the last minute cancellation, but we will enjoy the program he had planned for us, anyway. From what my expectations and knowledge are, it will be a beautiful and worthwhile experience for everyone. John plans to have us experiment with many forms of dancing, which are truly part of the community dance genre. So, dancers who enjoy every level of square and round dancing will have a delightful adventure at this dance. Frieda Gratzon will chair this event.

Please mark your calendar for May 4 and May 18 and plan to join us for two fun filled days of dancing.

The workshop, held at the February meeting was based on "Quadrilles". Double Quadrilles were presented at this session and everyone seemed to enjoy themselves and left the meeting in a happy frame of mind. If that be a test of the success of a meeting, then a success it certainly was! Donna & Bill Anderson catered the refreshments for this meeting, which also played a starring role in the good fellowship we all enjoyed.

Our last meeting was held on March 2, from 2:00-5:00 PM.

Please call Jim Howatt for information on upcoming meetings. We welcome and urge all leaders, who are interested, to attend these meetings.

L.V.A.C.A. SPONSORING A SPRING SPECIAL

Members of the association will provide an evening of fun with Mainstream and Plus dancing along with Easy Intermediate rounds. This will be the L.V.A.C.A.'s last dance of the season so everyone feel welcome to join in on the fun. The cost is \$2.50 per person. Don't miss out on this opportunity to have a good time!

Points of interest in Indianapolis can turn a trip to the 35th National Square Dance Convention, in June, into a vacation in the Hoosier capital.

Here are some of the attractions you might like to see:

The Indianapolis Motor Speedway is the place that made Indianapolis famous and is still intact with all its heritage dating back to 1911. Inside the famous 2½-mile track is the Speedway Hall of Fame Museum with one of the world's largest and most varied collections of cars, including more than 25 which won the Indianapolis 500-Mile Race. The museum is open every day and trips can be taken around the race track. Souvenirs and

Woodruff Place was carved from 80 acres in 1872. This residential area, with four fountain-spotted drives, still echoes the Victorian era. Many of the homes have been restored to their original beauty. Woodruff Place was included in the National Register of Historic Places in 1972. What was once a "suburb" of Indianapolis is now a charming automobile drive through the past.

Hook's Historic Drug Store is open every day at the Indiana State Fairgrounds. This drug store features walnut fixtures, ornately carved and accentuated with arched glass advertising signs dating back to 1850. A museum displays drug store artifacts from bygone days. The working soda fountain "builds" sodas the way they once were prepared.

President Harrison's Home is the home of the only man elected U.S. President from Indiana. He built his home in the capital city in 1875. It is now open to the public and has been restored as a memorial to Benjamin Harrison, the 23rd President. After serving his presidential term, Harrison lived in this house until his death in 1901. A third-floor ballroom in the home houses artifacts from Harrison's personal and professional life. There is a small fee charged for this tour.

The Children's Museum is the largest museum in the world for children and is as interesting for adults as it is for children. The museum contains an operating antique carousel, a historic locomotive, a log cabin and one of the largest model train exhibits in existence. Many exhibits allow museum visitors to handle the display items. This tour is free to all visitors.

The Indiana State Museum is the former Indianapolis City Hall and is a showcase of Indiana heritage with both permanent and changing exhibits. Its central permanent feature is a pendulum which hangs from a free-turning axis and illustrates that the earth turns. As the hours pass and the building moves with the earth, the pendulum maintains its arches and topples pins to illustrate the changing position of the building. This

tour is free to all visitors.

Riley Home is the home of poet, James Whitcomb Riley, who left more than a legacy of verse. His home in Indianapolis was built in 1872 and has been called one of the two most perfectly preserved Victorian homes in the United States. There is a small fee charged for this tour.

The Indianapolis Museum of Art houses exhibits which display Indiana's largest collection of paintings, sculptures, silver treasures, porcelain and textiles. The museum's 154 acres constitute one of the city's most picturesque park atmospheres. This tour is free to all visitors.

The Museum of Indian Heritage, which is located in Eagle Creek Park, is the largest developed municipal park in the United States. The museum houses many rare Indian materials from America's ancient past through the colorful historic period. This tour is free to all visitors.

The Lilly Center comes complete with a 10-minute program which describes the operation and objectives of one of the world's largest drug producers. Displayed in the Lilly Center is memorabilia from the Lilly family company archives and exhibits of drugs developed by the firm. This tour is free to all visitors.

The Indianapolis City Market is one of the last surviving original city markets in the nation. It offers numerous booths for dining, merchandise, groceries, and beverages, all in a picturesque setting. Outside the city market is a park-like area which permits summer picnics where there is often free music on the schedule.

Conner Prairie is a 30-minute drive from downtown Indianapolis and takes you to a living pioneer museum where the year is always 1836. The actors portray residents of an old Indiana village. In operation are the school, pottery, blacksmith shop and several homes. There is also an extensive gift shop and dining facilities. There is a small fee charged for this tour.

CAMPING INFORMATION FOR THE 35TH NATIONAL CONVENTION

(continued from page 19)

of traffic and paperwork, there will be no reserved spaces nor may one camper "hold" a space for another camper. There will be no exceptions, so remember - to camp together, you must arrive together! Sorry, no tent sites.

Limited hook-ups. Every effort will be made to provide electrical hook-up for every unit. Many water hook-ups will be available for easy access to units that are not on direct water hook-up. There will be limited shower facilities, ample restrooms, refuse containers, and three onsite dumping stations. There will be no pump out service, however portable holding tanks will be available on a scheduled basis, free of charge, should you not wish to move your RV prior to departure. Waste water will not be allowed to run onto the ground.

A separate area will be provided for those wishing to run generators.

For your convenience there will be an onsite restaurant, ice station, pay telephone, postal pick-up service, first aid station and RV parts and service store.

Around the clock security will be provided by fairground patrols and our volunteers.

Free bus transportation will be available from the fairground to the Convention Center on a scheduled basis to register campers only.

No ground fires are permitted, however grills may be used as long as the charcoal is disposed of properly and not dumped onto the ground.

Pets are welcome but must not be allowed to run loose. Please be considerate of others by cleaning up and disposing of your pet's wastes properly.

An air conditioned hall will be available for trail-end and after party dancing.

Please monitor CB channel 4 for information and assistance.

The 35th National Square Dance Convention Camping Committee is making every effort possible to provide adequate and comfortable facilities, but please keep in mind that this is not a conventional campground. Those who wish to use these facilities, rather than "rough it

at a hotel", must expect a few inconveniences (such as limited shower facilities) unless your RV is fully self contained. However, we guarantee that what we may lack in physical amenities will be more than compensated for through good old fashioned Hoosier Hospitality. We look forward to seeing you at the 1986 Convention.

INDIANA'S PENGUINS

You've heard of everything going black? In Indiana, as the state's square dancers prepare for the 35th National Square Dance Convention, everything has gone black - and white.

The checkered flag, symbol of the Indianapolis 500 Mile Race, is a rallying sign for Hoosier square dancers, and their official dress also is black and white. This led some observers to dub the Indiana convention organizers as the penguins.

So the penguin has become the mascot for the three-day convention, which begins Thursday, June 26, 1986.

Life for Indiana penguins has not been too difficult. Only one square dance penguin was pulled in off the street to help a fancy restaurant which was short on waiters. And he didn't last too long - one teacup chain at a table which had ordered a hot beverage and he was back on the street.

Not all penguins live amid ice and snow, this is something that Hoosier penguins refuse to believe in January. Temperatures can reach 90 degrees where penguins nest and breed, and it can get that hot in Indianapolis in the summer, this means there are some interesting possible nesting and breeding sights at the Indiana convention.

While making presentations before the National Executive Committee, presenting skits, and joking with fellow dancers, Indiana's penguins were glad to know that penguins lay, at the most, two eggs. The Hoosiers tried to lay theirs early.

On the other hand, they were crestfallen (a not unusual penguin position) to be informed that, besides the king,

(continued on page 20)

INDIANA'S PENGUINS

(continued from page 19)

emperor, little blue and crested penguins, there also exists the dreaded Cape, or Jackass penguin. Nature (and a convention) is not always kind.

Penguins may be from 16 to 48 inches tall making them difficult to spot in large square dance halls and subject to being lost in load-the-boat shuffles. They weigh, tops, about 75 pounds. Although few Hoosier penguins can boast of being that light, they nevertheless are cautious of being swung vigorously; they fear flying, landinf, that is, in a neighboring square. Some penguins have embarked on every known Hoosier diet trying to reach 75 pounds.

Like nature's penguins, Hoosier penguins are gregarious and have the habit of standing in lines. Some of these are merely round dancers waiting for the music to start. Others are just trying to get near the coffee pot between tips. A few penguins don't know where to draw the line at all.

Penguins have an alternating system: the male will hunt while the female tends to the nest, then they will switch roles. This is known as "save me a seat while I try to get in the refreshment line".

So if you want to see penguins at work, come to Indianapolis for the 35th National Square Dance Convention, which begins Thursday, June 26, 1986. Penguins will be everywhere, trying to make your stay as cozy as possible.

You can determine their sex by their bills. The female's bill is slightly smaller than the male's among nature's penguins. It may flap more often, but it's smaller, naturalists contend. And remember that penguins will nest anywhere: don't leave your hotel room door open.

25TH DEL. VAL. CONVENTION NEWS UPDATE

What is a Booster? A little boy who boosts another little boy over the fence to see a ball game? Webster says - One who or that which boosts; to be an energetic and enthusiastic supporter.

We need YOU to be a booster or a supporter of the 25th Program Book. One dollar (\$1.00) per person is all that is required to have your name appear as a booster in the 25th Program Book. You will be contributing greatly to the support of this beautiful program book. 25TH PHILADELPHIA CONVENTION NEWS UPDATE

Convention time is just seven months away and as of now registrations are far ahead of past years. To date, there are close to 1,000 registrations. As previously stated, there will be a cut-off at 1,600 dancers. NO registrations will be sold at the door. A further note, there are still rooms available at the hotel; the new name is the Omni Dunfey Hotel. PLEASE send your registrations in now!

The Program Committee has announced that there will be "Two Plus Halls" this year. One hall will be at a slightly lower level than the other. Special events this year will include a fashion show, caller's clinic, a pool party for teens and other panels and clinics to be announced later.

EVENTS PLANNED FOR ROUNDALAB'S 10TH ANNUAL CONVENTION

Round dance teachers from five countries will be congregating on Sunday, Monday and Tuesday in Indianapolis, IN, at the Holiday Inn-Airport for Roundalab's 10th Annual Convention this June, prior to the 35th National Square Dance Convention.

Leaders will gather to share their knowledge and expertise for the enjoyment and betterment of the round dance activity. Much of this year's meeting will be devoted to reviewing and refining the various Phases of Round Dancing, the Roundalab Phase Rating System, and the suggested cueing rules - reflecting a year of "Field Testing". Eagerly awaited are the tapes of the Phase figures, prepared by the Video Tape Committee, as well as other reports including Accreditation and Teaching Progression.

"Swap & Exchange" sessions will feature the use of TV taping in teaching, phasing a round dance and cue sheet, reading and writing. Evenings will be

devoted to educational sessions - "Techniques for the Round Dance Teacher" with Don & Pete Hickman of Texas is scheduled for Sunday. On Monday evening, after the Awards Banquet, Wade Driver will discuss "Understanding our Music and How to Use It" including microphone techniques.

It will be a busy, overflowing two-plus days. Although there will be no programmed round dancing at the meeting, the Indiana Round Dance Council is inviting all Roundalab attendees to relax at a special dance, in their honor, on Tuesday evening. Many leaders are planning to remain all week to attend Roundalab's 1st Annual Teacher Seminar/Clinic on Wednesday and then assist at the 35th National Square Dance Convention.

ROUNDALAB PROGRAMS FOR THE 35TH NATIONAL SQUARE DANCE CONVENTION

Irv & Betty Easterday, Program Chairmen for Roundalab, announced that Roundalab will once again provide a daily two-hour round dance educational seminar for the 35th National Square Dance Convention in Indianapolis, IN, in June.

Richard & Jo Anne Lawson and Horace & Brenda Mills will cover how to teach and dance the figures in Roundalab Phases III and IV. On another day, Wayne & Barbara Blackford and Jack & Ione Kern will do the same with the figures in Roundalab Phases V and VI. "Introducing and Using Rounds in the Square Dance Program" will be discussed by Herb & Erna Egender on Saturday. Their presentation will also be excellent for new round dance teachers and dancers as teaching progression and a mini clinic for new round dancers will be included.

During all sessions there will be plenty of time for audience participation, questions and discussions. Printed materials will also be available at each session covering the basic information to be presented.

The days, exact times and locations of

these informative seminars will be listed in the National Square Dance Convention program booklet.

While Roundalab is a professional international round dance teachers organization open to all who are actively teaching round dancing at any Phase, all these seminars are open to any teacher, dancer or square dance caller who is interested in round dancing as a part of the overall square dance activity.

Roundalab will also be presenting its 1st Annual Round Dance Teachers Seminar/Clinic on Wednesday, June 25, 1986, in Indianapolis. For more information contact the Roundalab Office at 3 Churchill Road, Cresskill, NJ 07626.

**ROUNDALAB'S TEACHER
SEMINAR/CLINIC**

As with all professional societies, one of Roundalab's continuing concerns is the improvement of round dance teaching through education.

With the Roundalab Annual Meeting now on Sunday, Monday and Tuesday, immediately prior to and in the same city as the National Square Dance Convention, the Roundalab Board of Directors has decided to hold a one day Round Dance Teachers Seminar/Clinic on the Wednesday between the two conventions. While this Seminar/Clinic is aimed for round dance teachers, any person interested in round dancing is welcome to attend. There will be a nominal fee charged to cover expenses.

There will be three one-hour sessions during the morning and in the afternoon with a different topic and subject matter at each session. The format will be a seminar/clinic presentation with audience participation followed by a question and answer period.

CALLER'S WORKSHOP

For years, Callers have challenged R/D leaders to provide a Limited Round Dance Program that they could use along with their Limited Square Dance Program. Round dancers have responded with a wealth of information but in our eagerness to help, we have gone far beyond the Caller's objective and therefore completely missed the point. He does not seek the highly technical knowledge required of a round dance teacher, nor does he have the time or in-

clination to sort through this information to develop his own program. The most comprehensive written summation of his desires appeared in an article in the 1979 issue of Callers Gazette. It stressed the caller's extreme time pressure in his S/D class and listed the following criteria as his needs for a workable program: (1) A limited number of R/D basics (2) Limited number of round dances (3) Limited number of positions (4) Dance routines for easy, comfortable execution and cueing (5) Records and complete dance instructions available everywhere (6) Program at least some of these rounds at every square dance.

Certainly a program within these bounds can easily be developed. But first, let's probe a little deeper than the surface and make certain we thoroughly understand why it is desirable. Most competent callers and R/D leaders know rounds and squares go together but are unable to fully explain this gut feeling, not convincingly incorporate this positive relationship into the dancer's learning process. The present-day complexities of the two dance forms, along with organizing and regulation, have complicated our efforts to restore and maintain a common relationship. To keep up with this growth, we have had to seek short-cuts, so dancing was dropped from square and quantity substituted for quality. In so doing we have lost the primary ingredient that truly provides the joy and pleasure of our activity.

Rounds and squares belong together because of their common ground. The key to this common ground is called Dancing. Dancing is the rhythmic physical interpretation of music and is the real source of pleasure whether applied to a square or round dance basic. Both round and square dancing evolved from the natural human desire to create joy and pleasure from a group and individual activity. In a square, we relate to three other couples and in a round, we are totally involved with our partner.

As we bare these facts, we begin to see the true purpose and immeasurable value of a round program in the square dance class. In the square it can restore danc-

ing and its related pleasure and in the rounds we can enjoy acceptance and all the benefits of the caller's efforts. Most importantly, we will be fulfilling our commitment to the dancer.

Our objective is not to present a workable round dance program for the caller but also to create a basis for promoting a positive image of our dancing activity within the learning process of the dancer. We are fully aware of the size of this commitment and the enormous hurdles that must be overcome. The difficulty will not be in writing a program, but rather in its acceptance and implementation.

ROUNDALAB SURVEY

3,241 surveys were returned from round dancers all over the world including over 300 from Canadian dancers and 190 from Australia, New Zealand, Saudi Arabia and West Germany.

The majority of round dancers are in the 50-65 age group with over 92% having square danced. The average round dancer answering the survey had square danced over ten years and had been round dancing for almost eight years. 80% belonged to a round dance club with 79% dancing at the Easy Intermediates, 57% at the Intermediate levels and almost 26% at the High Intermediate or higher levels.

While over 28% learned their basics of round dancing at a square dance club, 74% had also attended a basic class of round dance instruction. Over half had attended an Intermediate class. Slightly over 35% had also taken some form of ballroom instruction, either privately or with YMCA and adult education groups. More than half attended Square Dance Festivals.

The dancers showed a strong dislike to round dancing to tapes and cued records and a mild dislike for records with vocals as well as memorizing sequences. Many commented vocals are too loud and they find it difficult to listen to two or more voices simultaneously.

The round dancers greatest pleasure,

ROUNDALAB SURVEY

(continued from page 26)

besides just the enjoyment of round dancing itself, was being with friends and leaders cueing rounds. Pleasure was also expressed in learning new figures, the exercise, learning new rhythms and just plain getting out. Mild pleasure was new acquaintances, the challenge of rounds, cost and clothes.

Comments were received on about 10% of all the surveys. Most of them dealt with new dances and level of dances. It was the feeling of most dancers that there are too many new dances and that most of the new dances don't stay around very long. Some of the comments suggested that Classics should be taught, better quality of dancers at lower levels are needed, and that more different rhythms be used. Comments also pointed out that the level is too high for the length of time a dance stays around.

The next largest amount of comments dealt with standards. Most of those wanted cues standardized and dances cued the same way. Some comments dealt with teaching techniques. Quite a

few expressed appreciation for their teachers. Some have to travel a long distance to round dance and wished there were more round dance teachers.

Some dancers expressed views that are food for thought. A number of people expressed a need for a national ROM/ROQ. Others wanted Manuals listing, explaining and diagraming movements for the Roundalab Phases and a Teaching Progression or Schedule for new round dance leaders.

Roundalab thanks all who took the time to answer the survey and is carefully evaluating the results in light of its current programs on Standardization, Phase Rating System, Cue Word Standardization, Video Tape Committee, Teacher Training Program and Teacher Progression Manuals.

Cliff & Pam Gordon, Survey Chairman, deserve high praise for handling all the computer entries, compilation and evaluation.

TREATISE ON THE BASIC TWO STEP

By Millard & June McKinney

The Two Step is a dance step in which 3 steps (changes of weight or counts) are accomplished in four beats of "Music". The usual music considered to be 4/4. When this type of step is accomplished in two beats of "Music", 2/4 the term "Triple Timing" is applied. Several popular S/D rounds are in Triple Timing. "Hot Lips" & "Street Fair" are two examples.

When performing a Two Step basic, the second step must be a "Closing" step. The first step can be in any direction, but the second step must close. The third step is accentuated by taking two beats of music. Thus the rhythm pattern for the Two Step is Q,Q,S,-; Three weight changes (counts) in four beats (one measure of 4/4 music). This rule applies to all Two Step "Basic" figures.

If the Two Step is performed in a forward, sideward or backward direction, the travelled distance (or progression) of the body is equal to "Two Steps", thus the proper name, "Two Step". The three changes of weight (counts) "Must" be on "Alternating" feet - R,L,R,-; or L,R,L,-;

The Basic Two Step Box is: Sd L, cl R, fwd L, -; sd R, cl L, bk R,-;

The Primary Basic Rule is confirmed... "Feet Together" (a closing step) on the second stop (count) in the Rhythm Pattern Q,Q,S,-;

This rule applies to ALL "Basic Two Step Figures".

Second Analysis:

Two Side Touches are not true Basic Two Steps. A Vine 3, Vine 4 or Vine 8 are not "Two Steps". These figures do not contain a "Closing Step" on count two - and because of this the travelled distance or progression is more than 2 steps.

Third Analysis:

Walking steps, one change of weight or one count to "every other" beat of music, are not "two steps", as the "Closing Rule" is not evident. Running steps, one change of weight or one count to "Every" beat of music, fail the closing test, also. (Walking steps: L,-,R,-; L,-,R,-; Running steps: L,R,L,R; L,R,L,R;).

If one were to invert the "Rhythm Pat-

tern" from QQS to SQQ, the rules of closure would also fail to apply. However, the SQQ Foxtrot is a delightful rhythm using the 'rule inversion' and certainly adds interesting figures to 4/4 music.

4/4 music is suitable for many other Rhythm Patterns, each involving the learning of a "New Vocabulary", (like learning a foreign language!).

CHOREOGRAPHERS' WORKSHOP

By Brian Bassett

Computers are Great!! We all know that they can be programmed in such a way as to make cue sheet composition quicker and easier than ever before possible...Hurrah!!

But there's a catch...A computer, when preparing a cue sheet for reproduction, is only as good as its "Printer".

If you do not use a "Letter-Quality" printer in conjunction with your computer when drafting up your cue sheets, re-type your cue sheets on a regular typewriter before distributing copies among your friends, travelling leaders and especially before sending them to Round Dancer for photo reproduction and publication. (Always be sure to use a fresh cloth ribbon or carbon ribbon in your typewriter).

Dot matrix printers (except for a very few that print good, bold characters) are "Not" suitable for photo reproduction. Even a brand new ribbon in your dot matrix printer will be of little help.

Sure, computers are expensive and so are good letter quality printers. But if you want your cue sheets to be easy to read, and reflect your desire to give the readers a top-quality learning teaching tool, 1) Use a letter quality printer, or 2) Use a typewriter with a carbon ribbon or a typewriter with a new cloth ribbon - before distributing copies as mentioned.
